I'll call you after I finish seeing patients. I cannot see how salaries/ and or benefits add up to what they're asking for= \$325,000.

No, they are only asking Senior Services to pay for salaries and wages. The proposal I sent you earlier is no longer being considered. I understand there will be another one today. We need to meet Wednesday night at 7 p.m.

Teresa

T: I thought that our figures showed that we were budget neutral. We had no extraneous costs that we did not pay for ourselves. The only numbers they are talking about are salaries. It seems like they are asking us to pay for benefits. Am I correct?

Also, I am not sure where their numbers of \$241 and \$80 are coming from. Can you clarify this?
